Southern Folger Detention Equipment Company is synonymous with excellence and quality in product design, materials, and craftsmanship, as well as facility construction, service, repair and retrofit. By combining the strength of the two pioneer United States detention equipment manufacturers, Southern Steel founded in 1897, and Folger Adam established in 1905, Southern Folger equipment and workmanship can be found in thousands of facilities around the world, and their equipment is specified by design professionals that demand only the best.

In addition to serving the world as the premier brand in detention grade locks and devices we are expanding into more markets. Southcross Custom Fabrication is a dedicated venture focused on providing metal fabrication and process development on behalf of direct and outsourced clients, including OEMs, oil and gas entities, agricultural interests, and any business requiring relevant full-service design, engineering and manufacturing solutions.
